AR Control Room

Abstract Rhythm is a multi-service production and recording facility located underneath the Manhattan Bridge in the DUMBO area on the Brooklyn waterfront. We have experience in variety of services including:

Recording	Arrangement	Mixing
Overdubs	Voice-overs	Composition
Film Sound	Musician Resources	Rehearsal

Our recording studio features two 12x13ft acoustically designed live rooms with a line of sight for superior isolation during your tracking sessions. Our control room was designed from the ground up for perfect mixes with a symmetrical design and tuned acoustic response. The entire studio is centered around a vintage Allan & Heath recording desk with full analog mixing and monitoring for that "big studio" sound.

Console:

1982 Allen & Heath Specturm (36 chan. 8 Bus)

Computer:

Custom Core2 Quad 2.5Ghz PC
