RECONSTRUCTION OF WATER STREET FROM ADAMS STREET TO OLD FULTON STREET AND WASHINGTON STREET FROM YORK STREET TO PLYMOUTH STREET

Project ID # SEK002355

Work Continues On The Water Street Project:

The New York City Department of Design and Construction (NYCDDC) continues work on the Water Street Project. The project commenced in the Summer of 2009, and is scheduled to be completed in the Summer 2011.

Work In Progress: July/August 2010:

Water Street between Dock Street and Main Street:

- Excavation/installation of new 18" combine sewer and 36" trunk water main.

Work Completed: As of June 2010:

Washington Street from Front Street to Water Street:

- Installation of the 12" distribution water main.

Old Fulton Street and Furman Street:

- Installation of new 18" combined sewer.

All cobble stones within project limits will be removed and reinstalled upon completion of roadway base. (Main Street between Water Street and Plymouth Street)

Looking ahead for 2010

Water Street from Dock Street to Adams Street:

- Continue the installation of the 18" combined sewer and the 36" trunk water main.

Furman Street to Water Street:

- Continue installation of new granite curb.

Old Fulton Street and Water Street:

- Restore roadway base and commence reinstallation of the cobble stones roadway.

Water Street, starting at Old Fulton Street and Water Street:

- Commence installation of new curbs and sidewalks.
- There are many slated improvement to help preserve the character of the neighborhood
- Resetting the old trolley tracks on Water Street.
 - Installation of new pigmented sidewalks.
 - 25 new trees will be planted
 - Installation of some new street lights

36" trunk main and valve installation at Furman Street and Old Fulton Street.
